The screenshot displays the IBM Cognos Analytics with Watson user interface. At the top, the header bar includes the application name, a notification for '2 items open', a 30-minute timer, a search bar labeled 'Search content', and icons for help, notifications, and user profile. The left sidebar contains navigation links: Home, New, Upload data, Content, Recent, and Manage. The 'New' menu is expanded, showing options under 'Data' (Data module), 'Explore' (Exploration), 'Present' (Dashboard, Report, Story), and 'Dashboard'. The 'Dashboard' option is highlighted. The main content area features a large header image with a hexagonal pattern and a 3D cube. Below this, two cards are visible: 'Exploration' with a diamond icon and the text 'Quickly find unbiased answers by identifying trends in your data with data explor...', and 'Present data' with a monitor icon and the text 'Create sophisticated, multi-page, multi-query dashboards, reports, or stori...'. A third card is partially visible on the left.
